## PROFILE

Full-Stack MERN Developer with hands-on experience in building scalable web applications, RESTful APIs, and database-driven systems. Strong expertise in backend development, authentication, and CMS-based platforms. Proficient in React.js, Node.js, Express.js, MongoDB, and MySQL with a focus on performance optimization and clean code practices. Demonstrates strong problem-solving abilities and a continuous learning mindset. Seeking a challenging full-stack developer role to contribute and grow in a professional environment.

## EXPERIENCE

Devologix IT Solutions

*Punjab, India*

**Junior Web Developer**

Aug 2025– Present

- Developing full-stack web applications with focus on scalability.
- Working on a custom CMS system to build dynamic features and functionality.
- Creating reusable modules to improve development efficiency across projects.
- Building REST APIs, authentication systems, and optimizing performance.

Devologix IT Solutions

*Punjab, India*

**Web Development Intern (Internship + Part Time)**

Jul 2024 – Dec 2024

- Worked on CMS-based dynamic websites
- Customized and optimized HTML templates
- Improved frontend-backend integration
- Handled real client projects
- Enhanced usability & performance

### Key Projects:

**WorkSync – Project Management System**

Aug/25– Oct/25

- Designed and developed a centralized system to manage projects, tasks, users, and deadlines by implementing role-based access and structured workflows.
- Used MERN stack concepts with MySQL integration, Express APIs, session-based authentication, and responsive UI components.
- Improved team coordination and task tracking efficiency through organized dashboards and real-time status visibility.

**Tech Stack:** MySQL, Express, Node.js, Ejs, Bootstrap.

**FinTrack – Expense Management System**

Nov/25– Dec/25

- Built an expense tracking application to record, categorize, and analyze user expenses for better financial control and decision-making.
- Implemented backend logic using Node.js and Express with MySQL and MongoDB for secure storage and data management.
- Enabled users to monitor spending patterns and generate summarized reports for improved budgeting.

**Tech Stack:** MERN, MySQL, Express, Node.js, Ejs, Bootstrap.

## ACADEMIC PROJECTS

### Inventory Management System (Web-Based)

Jan/25 – Feb /25

- Designed and developed a web-based inventory management system to track products, stock levels, and order history for small businesses.
- Implemented CRUD operations, authentication, and database relationships using Node.js, Express, and MySQL.
- Improved inventory visibility and reduced manual tracking by providing structured product and stock reports.

**Tech Stack:** MySQL, Express, Node.js, Ejs, Bootstrap.

### RAM Memory Forensics – Simulated Analysis Tool

Sep/24– Oct/24

- Designed a simulated digital forensics tool to analyze volatile RAM data.
- Modeled memory capture and analysis workflows using Python and forensic concepts.
- Improved understanding of memory-based evidence handling in cybersecurity investigations.

**Tech Stack:** Python, Streamlit, psutil.

## EDUCATION

Guru Nanak Dev Engineering College

*Punjab, India*

**Bachelor of Engineering** - Information Technology

2022 – 2025

Guru Nanak Dev Polytechnic College, Ludhiana

*Punjab, India*

**Diploma** – Computer Science Engineering

2019 – 2022

## CERTIFICATES

Full Stack Development (MERN Stack) – Internship

**Devologix It Solutions**, Ludhiana | Jul 2024 – Dec 2024

React Web Developer Certification

**Infosys Springboard** | Jul 2023

Web Development Training Program

**STEP – GNDEC**, Ludhiana | Jun 2024 – Jul 2024

Java Programming Training Program

**STEP – GNDEC**, Ludhiana | Aug 2024 – Sep 2024

## SKILLS

**Frontend:** HTML5, CSS3, React.js

**Backend:** Node.js, Express.js

**Programming:** JavaScript, Python, Java

**Databases:** MongoDB, MySQL

**Tools:** Git, Postman, VS Code

**Platforms:** WordPress, Shopify
